

Daniel Tsionit

Senior Frontend Engineer

Senior Frontend Engineer with 10+ years shipping production React/Next.js & TypeScript at scale – now building AI-native products end-to-end. I own the UI architecture, drive measurable performance wins, and go full-stack with Node. I design and ship autonomous agent systems: LLM integrations, multi-agent orchestration, RAG pipelines, and Model Context Protocol (MCP) tooling – turning the agentic shift into products that actually ship.

Selected Impact

- Architected and shipped autonomous AI agent systems end-to-end – LLM integrations (OpenAI, Claude, Gemini), multi-agent orchestration, RAG pipelines, and Model Context Protocol (MCP) tooling that put real automations into production.
- Led high-performance React/Next.js interfaces for a global fintech, prioritizing UX, accessibility and reliability.
- Co-created a design system at Qwilt with React + TypeScript to standardize components and speed delivery.
- Implemented an end-to-end GDPR solution at Webpals and built company-wide internal tooling for plugin deployment and analytics.
- Co-founded a Web3 initiative delivering smart-contract-driven bots, and mentored developers from zero to production.

Core Skills

Breadth across the web stack with deep expertise in modern frontend architecture.

FRONTEND

- React
- Next.js
- TypeScript
- Redux
- TailwindCSS
- TanStack Query
- React Hook Form
- Zustand
- Vite
- SEO
- Storybook

AI & AGENTIC ENGINEERING

- LLM Integration
- OpenAI API
- Claude
- Gemini
- AI Agents
- Multi-Agent Orchestration
- RAG
- Vector DBs
- Embeddings
- MCP
- Prompt Engineering
- Tool Calling

AGENT FRAMEWORKS & TOOLING

- OpenClaw
- Hermes
- Claude Code
- Cursor
- LangChain
- LangGraph
- CrewAI
- AutoGen
- n8n
- Make
- Docker
- GitHub Actions

BACKEND & DATA

- Node.js
- Supabase
- PostgreSQL
- MongoDB
- REST
- CI/CD
- AWS
- Vercel

TESTING & QA

- Unit Testing
- Jest
- Cypress
- Testing Library

DESIGN

- Figma
- Photoshop
- Illustrator
- Google Stitch
- Claude Design

Career Timeline

- 
Senior Frontend Engineer @ Payoneer Feb 2023 – 2025
 Petah Tikva, Israel
 - Improved dashboard load time with code splitting and smarter caching.
 - Built accessible React/Next.js interfaces for fintech workflows.
 - Turned product and UX specs into clear, reliable user journeys.
 - Led reviews, testing practice, and mentoring across the team.
- 
Senior React Developer @ Self-Employed Sep 2022 – Feb 2023
 Hadera, Israel
 - Built and maintained Web3 tools with React, Node, and MongoDB.
 - Set up CI/CD and feature flags to speed up releases.
 - Mentored new developers into production work.
- 
Senior React Developer @ Qwilt Jan 2022 – Aug 2022
 Hod HaSharon, Israel
 - Built internal apps to manage edge servers and analytics.
 - Helped create a typed design system with React and TypeScript.
 - Increased reliability with validation and integration tests.
- 
Front End Engineer / Tech Lead @ Webpals 2015 – 2022
 Tel Aviv, Israel
 - Led SEO-first WordPress themes for high-traffic sites.
 - Shipped an end to end GDPR solution used across company sites.
 - Built internal tools for analytics and plugin deployment.
 - Started a team knowledge base and introduced serverless patterns on AWS.
- 
Front End Developer @ Konimbo (E-commerce SaaS) 2013 – 2015
 Netanya, Israel
 - Shipped storefront features and templates with the design team.
 - Developed plugins and integrated third-party APIs on a Rails SaaS.
- 
Cybersecurity Consultant @ SECOZ 2012 – 2013
 Modiin-Maccabim-Reut, Israel
 - Ran vulnerability assessments and implemented security improvements.
 - Worked with IT and engineering to reduce risk and document findings.
 - Planned security architectures and researched standards.
- 
IT Specialist @ Bezeq International 2008 – 2012
 Petah Tikva, Israel
 - Provisioned servers, routers, switches, firewalls, and VMs.
 - Moved from support to data center operations.

Education

- 
Afeqa Tel-Aviv Academic College of Engineering
 B.Sc. in Software Engineering
